Materials | Brass and Mild Steel  
---|---
Connections | ½ flow and return.
Test pressure | 6.9 Bar  
Testing authority | EN442  
Maximum operating pressure | 1.5 Bar  
Maximum working temperature | 80 ºC  
Packaging | Cardboard and foam protection in cardboard box

PLEASE NOTE: Systems using micro bore pipework must have adequate pressure and flow rates for the number and style of radiators on the system.

**Terms & Conditions**

All products must be inspected once removed from the packaging and Hunt Heating notified within 28 days of delivery of any scratches, blemishes or other damage. Hunt Heating will then replace the radiator.

Imperfect radiators should therefore not be fitted and Hunt Heating will not accept responsibility for replacement of scratched or damaged radiators once they have been fitted. This includes any consequential loss or cost of fitting.

If Hunt Heating are not notified within 28 days of the date on the signed delivery note then it will be deemed that Hunt Heating have fully complied with its obligations and claims will not be considered.

Failure to comply with any of the above may invalidate any claims.

We recommend that after you check the product on delivery that it is stored in its packaging to prevent damage prior to installation. Hunt Heating cannot accept responsibility for items damaged after delivery.

**Guarantees & Liabilities**

As we are not the manufacturers of this product we will take all reasonable endeavours to make over to you the benefit of any warranty or guarantee given by the manufacturer, which is usually five years on most of our range. (Copies of specific guarantees for any of our products are available on request).

The guarantees in all cases are subject to the products being installed in accordance with British and or European standards as well as these fitting instructions. The guarantees in all cases are restricted to the free of charge replacement or repair of the failed product only. Our liability will under no circumstances extend beyond the repair or replacement of the product supplied by us. Claims for either labour in replacement or damage to property are not admissible. Any goods that are returned, in the event of a problem, will belong to Hunt Heating.

Please read these instructions and terms and conditions carefully prior to installation. Failure to do so may invalidate the warranty.

**Unpack & Inspect**

Hunt Heating prides itself on selecting products from manufacturers who exercise tight quality control measures. We only select models with excellent standards of welding and brazing, as well as high quality finishes. All of our products are well packaged and should reach you in perfect condition. Just in case however, we offer a minimum 5-year no quibble guarantee for all radiators and towel rails.

Hunt Heating must be notified of any shortages or damage within 28 days of delivery. For further information please see terms and conditions on back page.

**Contents**

You should have:
- 1 Radiator

You will need:
- Tape measure
- Electric drill and bits
- Spirit level

**Mark Bracket Positions**

Place the radiator in the position desired, and mark through the holes where drilling is needed.

**Fix Brackets**

Using a suitable drill bit, screws and plugs, fix the brackets and level with a spirit level. Please see diagrams.

**Commission**

Please Note:
In accordance with Part L1 2006 of the Building Regulations and BS7593:1992 code of practice for the treatment of hot water and central heating systems, we strongly recommend flushing the heating system post installation of new radiators and then adding the correct quantity and type of inhibitor for use with your radiator and system to prevent corrosion. Damage caused to systems not protected by a suitable inhibitor will not be covered by manufacturer's guarantee.
